

Prof. Bharat Raj Singh

My Journey in 2013-highlights

(Date: 28th Dec' 2013)

Got published a book on "Climate Change: Reality & Impacts" in January' 2013 at InTech, Croatia that got maximum visits worldwide. Its 10-12 pages are selected by CENGAGE Learning Publication, USA for the book under publication for Basic Education in USA.

Completed a Proto Type Research Project on zero pollution air engine which has been installed on motorbike with a successful travel of 30 Km at 300psi (20bar) when filled with compressed air in its storage tank. The Council of Science & Technology, Uttar-Pradesh, India got it displayed at the Science & Innovation Exhibition in Lucknow. The project was applauded by the President of India, Mr. Pranab Mukherjee on 10th May' 2013. It had wide coverage in Media.

Given responsibility as Director, School of Management Sciences (Technical Campus) Lucknow at the time when I was discharging my duty as Director (R&D), CV Raman Centre for Research & Innovation, Lucknow.

Organized an All India Seminar on Sustainable Planet Energy, Environmental and Disaster: Challenges & Strategies (SPEEDS-2013) on 7-8 Sep' 2013 which received cheerful response from the Academicians, Industrialists and Scientists all around. Recommendations were given to take steps to curb the challenges of Global Warming in quick and wider spectrum.

The Air-O-Bike Project has been screened for publication in the "Limca Book of Records - 2014"

Thanks to the team of Elsevier Innovation Explorer, Science Direct and CV Raman Centre for Research & Innovation, Lucknow for providing me & my team encouragement towards SAVE OUR EARTH PLANET mission and helping the SOCIETY at large.

Wishing you all a very happy, prosperous and dreamful

NEW YEAR 2014

to face bigger
Challenges of life.
