Prime Minister

MESSAGE

It is great to know that the 4th International Seminar on “Sources on Planet Energy, Environmental & Disaster Science” (SPEEDS-2017) is being organized on the theme ‘Glacier Melting & Its Challenges’ by School of Management Sciences in association with Institution of Engineers, UP State Center Lucknow and Dr. A.P.J. Abdul Kalam Technical University, Uttar Pradesh.

The need of the hour is the world to come together to mitigate the menace of climate change. Glacier melting is a challenge that requires greater study and practical steps for its prevention. It is appreciable that this International Seminar is focusing on this subject and I hope it will be a productive platform for scholars from across the globe to present their insights on this phenomenon. Best wishes for the success of the Seminar.

(Narendra Modi)
