

**PATRONS**

1. Dr. M.P. Singh  
Executive Secretary  
School of Management Sciences,  
Varanasi
2. Mr. Sharad Singh  
Chief Executive Officer  
SMS Group of Institutions  
Lucknow

**ADVISORY BOARD**

1. Prof. (Dr.) V.K. Singh  
Pro-Vice Chancellor  
G..B.T.U., Lucknow
2. Prof. (Dr.) K.P. Singh  
Director  
IT, BHU, Varanasi
3. Prof. (Dr.) H. Karnick  
Computer Science & Engg.  
IIT, Kanpur
4. Prof. (Dr.) Onkar Singh  
Department of Mechanical Engg.,  
H.B.T.I., Kanpur
5. Prof. (Dr.) Bharti Dwivedi  
Dean-Research  
G..B.T.U., Lucknow
6. Prof. (Dr.) V.K. Singh  
HOD-Electronics,  
I.E.T., Lucknow

7. Prof. (Dr.) A.N. Singh  
Director  
ALLEN Institute of Technology, Kanpur
8. Prof. (Dr.) G. D. Singh  
Director  
SMS Institute of Technology  
Lucknow

**EDITOR-IN-CHIEF**

Prof. B. R. Singh

**ASSOCIATE EDITOR**

Mr. Saurabh Shukla

**EDITORIAL BOARD**

1. Dr. Dharmendra Singh  
Dept. of Applied Sciences
2. Dr. P.K. Singh  
Dept. of Applied Sciences
3. Dr. Rajesh Kumar  
Dept. of Applied Sciences
4. Mr. Amarjeet Singh  
Dept. Electrical & Electronics Engg.
5. Mr. Rahul Mishra  
Dept. of Electronics & Comm. Engg.
6. Mr. Rakesh Verma  
Dept. of Mechanical Engg.
7. Mr. C.L.P. Gupta  
Dept. of Computer Science & Engg.

## *Editorial*

We are starting a new tradition in **SAMRIDDHI - A Journal of Physical Sciences, Engineering & Technology**, from now onwards. Each issue will feature an editorial on some topic related to current issues such as: disaster management science, global warming & its effect on human being and energy sustainability. Energy is a well-defined scientific concept, and scientists have known for some time that the universe around us is all about energy. Conservation of energy is probably the most cherished law in all of the physical sciences. On the other hand, the terms renewable and sustainable are not well-defined scientific concepts, and consequently they have different meanings to different individuals.

This issue covers, evaluation vehicle routing problems, key to innovative teaching techniques, connective heat transfer coefficient under closed conditions, Ultra low energy wireless micro sensor, MIS in electronics information, corrosion of carbon steel in well water, security threats in mobile adhoc network and application of HR accounting in heavy industries.

I hope, this issue will be useful to add on the knowledge pool of the academicians, scientists, industrialists and researchers by its quality scientific works.

At last, I would like to welcome the readers with their valuable suggestions for future improvement.

  
(Prof. B.R. Singh)  
Editor-in-Chief
